for young artists of different genres
and danube countries

at the adk-ulm

Cross-Over-Summeracademy

From 02. August until 27. August 2010 the cross-over-summeracademy is going to take place in Ulm. Thereby an opportunity is provided for an international cooperation of eight students from different genres. The participant students are from estimated five different danube countries, so we will realise the basic idea of the project.

The talent-structures of young artists changes all the time. By now many young artists have multiple talents that are not specified in just one (art)genre. Unfortunately there isn't a possibility to study „mixed“ arts at academies, universities or colleges.

As well visual- and acoustical habits plus anticipations on contemporary arts are not represented in the current education-structure.

To connect theatre, cinematic, dance, music, performing art and literature is the goal of adk-ulm's cross-over-summeracademy 2012.

The cross-over-summeracademy adresses itself to students with multiple talents, which shall study and experiment on new genres across the formats in this common project.

The project is supervised by Ralf Rainer Reimann (director of adk-ulm) and Stephanie Martin (musical supervisor of adk-ulm).

The result could be a multimedia-based art-performance, a scenic vernissage, a happening which is overall genres, that will be presented after the international danube-festival.

Ulm, den 12.01.2012

Ralf Rainer Reimann
